afraz.momin@gmail.com

Final Year Engineering Student. Love to code and have a strong hold on Data Structures and Algorithms. Have worked on iOS as well as Android platforms previously. Working towards becoming a Full Stack Developer soon. Big ML / AI enthusiast.

## Work History

2019-06 - 2019-07

### Data Science Intern

*Tech Smart Systems, Pune, Maharashtra*

- Learnt Python from scratch
- Worked with various Machine Learning algorithms to create the best working models
- Got familiar with data visualization and performed data analysis on multiple projects

2019-01 - 2019-03

### Intern

*Toppr, Pune, Maharashtra*

- Worked on Quality Analysis
- Got familiar with Periscope Data and helped the team analyse the data effectively
- Worked closely with the knowledge team

2016-05 - 2016-08

### Software Development Intern

*Synepis, Pune, Maharashtra*

- Worked with Objective C to create iOS applications
- Helped design the UI for the same applications
- Worked with Parse for database integration

## Skills

- Good with Data Structures and Algorithms
- Well versed with C, C++, Python, HTML, CSS, JavaScript and PHP
- Android / iOS Application Development
- Working on my ML / Data Science skillset

## Education

2016-08 - Current

### Bachelor of Engineering: Computer Engineering

*Sinhgad Academy of Engineering - Pune University (SPPU)*

**SSC - 91.80% : HSC - 74.62%**

*Rosary High School - Camp, Pune*
